

Quick and Easy Way to Book More Appointments and Reduce Leakage!

dialog  health

Powerful Mobile Solutions. Better Engagement.

Dialog Health's File-Based SMS feature lets you quickly and easily connect with referrals and book more appointments.

Increase Booked Appointments

By reaching out to your referrals within minutes, you'll start seeing a significant increase in appointment bookings. More appointments mean more revenue for your healthcare business. It's a win-win for both your business and your patients.

Decrease Leakage

Stop the revenue leakage in its tracks. Our software helps your communication promptly and efficiently converting referrals into appointments. Reducing missed opportunities and increasing revenue.

Improve Productivity

With our software, you quickly and efficiently send text messages to your list of referred patients. This increased productivity allows your team to focus on what truly matters – providing the best care to your patients.

Reduced Staff Workload

We know your staff's time is valuable and spending hours on the phone trying to chase up patients is no fun and time consuming. With our software, you can speed up the appointment booking process, reducing the workload on your staff.

STEP 5

5. SEND SMS

GO LIVE!
Start sending your HIPAA-compliant text messages to your selected groups and start booking appointments!

*"Using Dialog Health text messaging for patient referral communication has helped us increase staff productivity and reduce time on manual tasks by eliminating phone calls that often led to voicemails. **Most patients call to schedule their appointment on the same day as they receive the referral text.** This has proven to be a quick and highly effective means of engaging."*

— Alicia Allen, Director, Metabolic & Nutrition Services, St. Mark's Hospital
